

## **ELECTION WITH TRAVERSE**

The Office Action has imposed a restriction requiring election of one of seven (7) distinct inventions (Groups).

- I.      Claims 1-35, drawn to a communication hub.
- II.     Claims 36, 37, drawn to an adaptive TDMA method.
- III.    Claims 38-54, drawn to a point to multipoint adaptive TDD method.
- IV.    Claims 55-72, 82-90 drawn to a point to multipoint adaptive TDD system.
- V.     Claims 73-75, drawn to a system of assigning frequency bandwidth.
- VI.    Claims 76-80, drawn to a system of a modem selectively connected to a transceiver/directional antenna combination.
- VII.   Claim 81, drawn to a system of adding auxiliary node.

The Applicant provisionally elects invention I, Claims 1-35 **with traverse**.

## **REMARKS**

The Office Action premises the restriction requirement with the conclusory statement that the inventions (Groups) as claimed are unrelated since they are not
